DJAJA HARAPAN GROUP

YOUR TRUSTED BEARING SPECIALIST

ABOUT US

Djaja Harapan is a leading distributor of premium automotive and industrial bearings, serving manufacturers and machine repair companies across Indonesia. With a commitment to quality, reliability, and exceptional customer service, we are a trusted supply partner for businesses that rely on precision and performance in every application.

Founded in 1975, we have built a solid reputation for distributing a wide range of bearing products from globally recognized brands. Our in-depth technical knowledge, vast inventory, and fast delivery make us the first choice for clients in sectors such as automotive replacement, manufacturing, heavy equipment maintenance, automation, power transmission, and more.

Technical Expertise

Our experienced team provides personalized support and application advice

Trusted Brands

Partnering with NTN, FYH, ZKL, HCH, ADP and other global manufacturing leaders

Genuine Products

We guarantee the products we provide are genuine and non-refurbished

Competitive Pricing

We commit to give the best, cost-effective rates to our customers

Custom Solutions

Sourcing rare or specialized bearings for unique applications

OUR VISION

To be the most trusted and responsive bearing distributor in the industrial market, known for expertise, speed, and service excellence.

OUR MISSION

To empower manufacturers and repair professionals with the highest quality bearings and mechanical components, ensuring optimal equipment performance and minimized operation expenses and downtime.

FEATURED BRANDS

NTN

NTN Corporation is a Japanese manufacturer and supplier of bearings, constant velocity joints, and precision equipment. They operate globally with a strong presence in the automotive, industrial machinery, and aftermarket sectors. NTN was founded in 1918 and is headquartered in Osaka, Japan.

Bower, formerly NTN-Bower Corporation, is known for its precision roller bearings. SNR, now NTN-SNR, is a European manufacturer specializing in bearings, especially spherical roller bearings and aerospace expertise. The merger of NTN and SNR in 2006 created a stronger global presence, particularly in Europe, while NTN-Bower serves the North American market.

FYH Production Plant

FYH, also known as FYH INC., is a Japanese manufacturer specializing in mounted ball bearing units, specifically pillow block units. They are known as the oldest and largest manufacturer of these units in Japan, having started production in 1950. FYH is also recognized as a leading manufacturer globally, with a wide range of products including nearly 700 types of bearings and 300 types of housings. Their products are designed for demanding conditions, such as high-speed rotation and heavy loads.

FYH

HCH

HCH, which stands for Huanchi Bearing Group Co., Ltd., is a large Chinese manufacturer specializing in precision ball bearings and tapered roller bearings. They are known for their extensive production lines, state-of-the-art machinery, and high-quality products, with a strong focus on quality control and environmental protection. HCH also operates through subsidiaries like HCH Bearing Americas (HBA) in the US, which handles distribution and sales in North America.

HCH Production Plant

ZKL is a Czech company that manufactures technologically advanced rolling and special bearings. The ZKL Group, established in 1999, comprises multiple manufacturing plants and specialized companies, including research and development and a sales entity. ZKL's products are used globally, particularly in industries like transport, energy, and heavy industries.
